## Overview

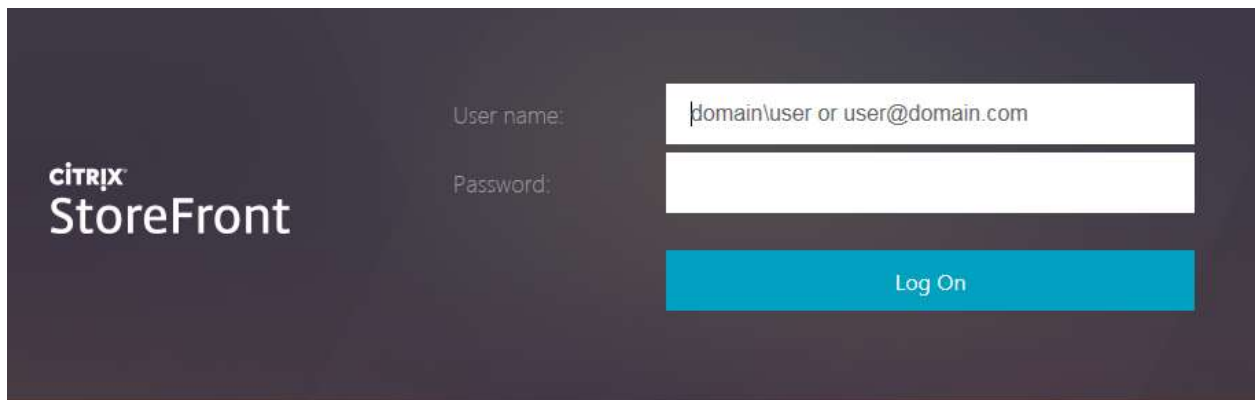

The new Citrix receiver is designed to eliminate desktop clutter and allow end users to manage their Citrix applications in one convenient interface. A **FAVORITES TAB** is provided to store your most used applications and the **APPS TAB** will store all the applications available to you. Below is a quick guide for using Citrix Receiver 4.x.

### I. Launching Citrix

Launch Citrix Receiver from the desktop

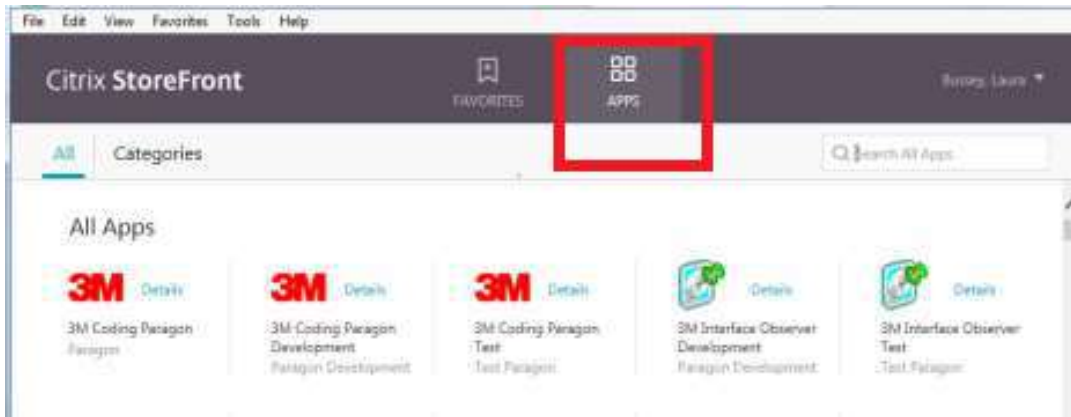

If presented with a login screen, type in your username and password in the Citrix Storefront window:

A screenshot of the Citrix StoreFront login interface. The background is dark grey. On the left, the "CITRIX StoreFront" logo is displayed in white. On the right, there are two input fields: "User name:" with a white text box containing the placeholder text "domain\user or user@domain.com", and "Password:" with an empty white text box. Below these fields is a prominent blue button labeled "Log On" in white text.

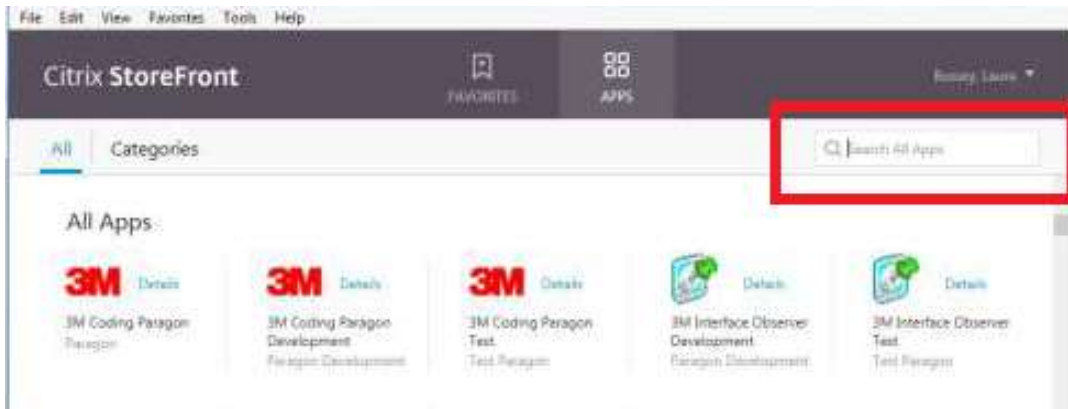

### II. Locating Applications

All your Citrix applications will be on the **APPS TAB**. Click the **APPS TAB** icon to navigate to your applications.

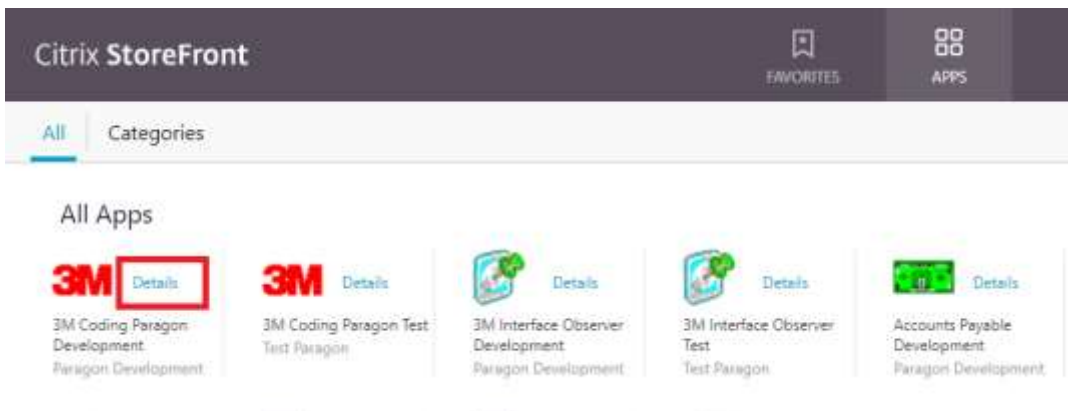

### III. Searching Applications

On the **APPS TAB**, use the **Search Bar** to locate the application you want to add to your **FAVORITES TAB**.

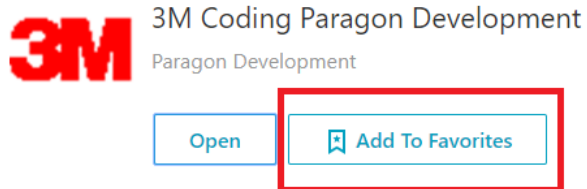

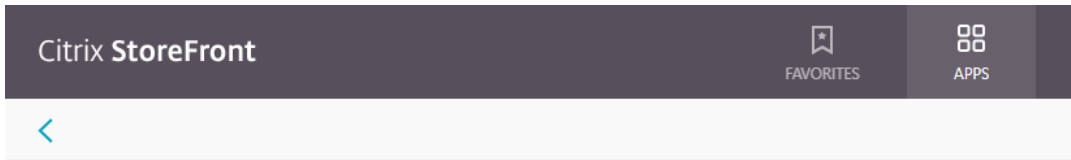

### IV. Adding Favorites

Click on the **Details** link next to the desired application icon.

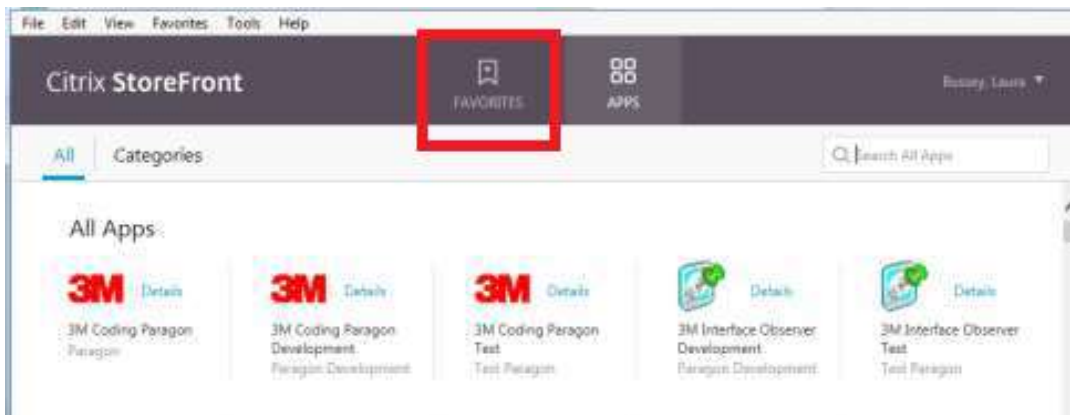

Click the **Add to Favorites** link

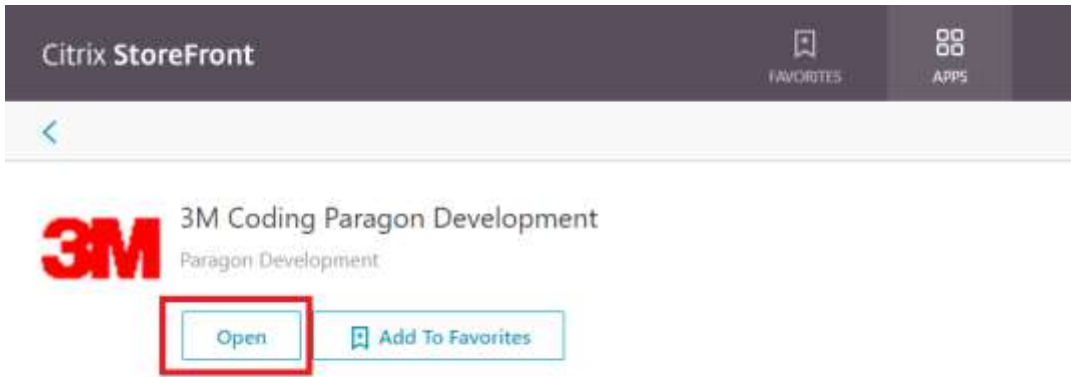

## V. Using Favorites

Once you have added the applications to your **FAVORITES TAB** they are available by clicking on the **FAVORITES TAB** section of Citrix Receiver.

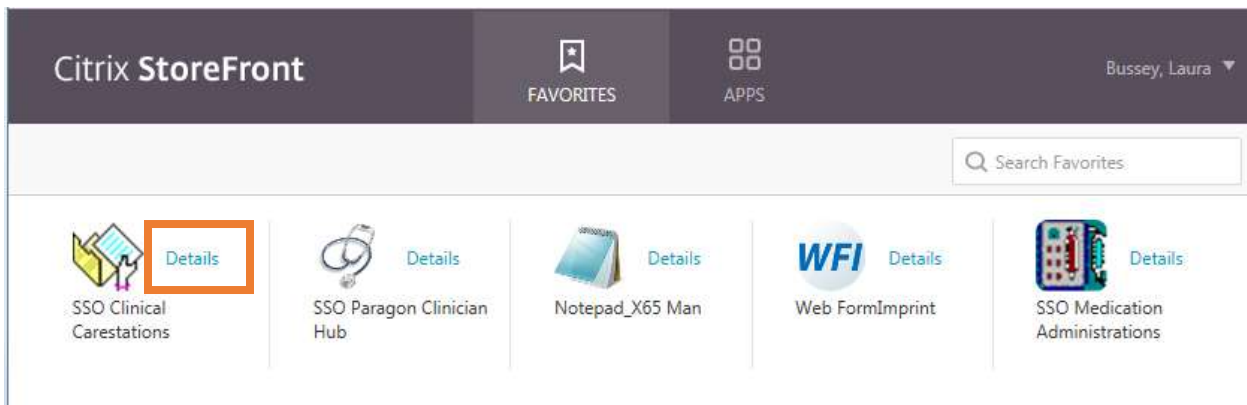

## VI. Launching Applications

Double Click the icon to launch the application or select the **Details** link and click the **Open** button.

## VII. Removing Favorites

Click on the **Details** link next to the application you want to remove from the **FAVORITES TAB**

Click the **Remove** link
