Re: AlertMD **MANDATORY** Application Update

AlertMD has released app version 16.9.5 for Apple and Android devices. This is a mandatory update to stay compliant with CMS regulatory updates. Devices **MUST** be updated by **Monday, August 13th** as previous versions will no longer be accessible after this date.

AlertMD will send out two push notifications to all those who have not yet updated their app. Please update your device as soon as possible. Thank you!!
